Summary of Course
This course prepares student teachers for the teaching of Geography in secondary schools in NSW.

The main ways in which the course has changed since last time as a result of student feedback:
- A Fieldwork Workshop has been added to the course to help students gain confidence in Fieldwork Methodologies
- A GIS Masterclass has been included to allow students to explore GIS in the Geography classroom
- The course has been restructured to allow time for fundamentals of Geography teaching including basic skills, and working with syllabus and scope and sequence documentation

Important information
Assessment: Please note that all students must pass all assignments to pass the course, and they must pass the course to go on placement for PE 1.

Attendance: Students are expected to give priority to university study commitments. Unless specific and formal permission has been granted, attendance at less than 80% of classes in a course may result in failure.

4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

Student-centred activities will form the basis of the course. These activities will draw on the prior knowledge of the students and will allow them to engage in relevant and challenging experiences that mirror those they will be expected to design for the secondary students they will later teach. The lectures and tutorials are designed to be supportive and friendly, as students are more engaged and learn better if they can have fun whilst learning.

5. TEACHING STRATEGIES

- o Small group cooperative learning to understand the importance of teamwork in an educational context and to demonstrate the use of group structures as appropriate to address teaching and learning goals
- o Some explicit teaching, including lectures, to demonstrate an understanding of students' different approaches to learning and the use of a range of teaching strategies to foster interest and support learning
- o Structured occasions for reflection on learning to allow students to reflect critically on and improve teaching practice
- o Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content.

S1 Assessment 1 (2 000 wd eq, 40%)

Due Date: 5pm, Tuesday 10th April 2018 (Online submission via Moodle)

Plan and design one 60-minute lesson for a mixed-ability Stage 4 class. The lesson plan must follow a standard SED format and be presented using the template provided.

Plan your lesson for a class in a comprehensive high school which would typically include EAL/D students, Indigenous students and students with various religious and cultural backgrounds. Some students may have low levels of literacy. Differentiation to cater for some students is therefore required. Appropriate differentiation strategies are scaffolding, group work and/or an alternative task or mode of presentation.

1. Write a rationale for your lesson plan. Your rationale should address the questions: What do I want the students to learn? Why is it important? What strategies will I use? What assessment for learning strategies will I use to monitor progress?

2. Prepare the lesson plan to demonstrate how you will use appropriate structure, activities, strategies and formative assessment to develop understanding of the material.

Make sure you

- choose an appropriate topic for the year group
- support your rationale using references indicating your professional reading
- choose appropriate outcomes and lesson content
- demonstrate knowledge of effective teaching and learning strategies
- use appropriate format and provide sufficient detail for an effective lesson plan
- include an aspect of literacy/numeracy which integrates with the lesson focus
- provide in full <u>one</u> activity (which may be ICT-based)
- express yourself in clear, standard Australian English.

Assessment Criteria for the written component

- * design effective lesson sequences suitable for a variety of Stage 4 students
- * plan a logical, sequential, cohesive unit of work
- * write with clarity and accuracy of written expression in sufficient detail to show understanding of each activity
- * use a variety of pedagogies appropriate to the material to be delivered
- * show knowledge of the NESA Geography syllabus and curriculum documents

justify your teaching strategies by referring to readings, research and material presented in lectures and the Quality Teaching framework

demonstrate how differentiation will support a diverse range of learners

state the prior knowledge students have to begin this unit and discuss how you would assess and build on this prior knowledge.

Include in your unit outline

- the learning intentions for each lesson
- <u>one</u> full activity for formative assessment (not an essay)
- <u>one</u> ICT-based activity (not watching a video or PowerPoint presentation)
- <u>one</u> group-work task with a focus on literacy/numeracy (not a mind-map)
- <u>one</u> incursion/excursion/performance/product activity
- outlines only for the other teaching materials required.

ASSESSMENT 3 - MICROTEACHING

Microteaching is the planning, presentation and evaluation of a lesson over a shortened period of time (a 10 minute mini-lesson). It is a critical aspect of method as it provides students with the opportunity to demonstrate key competencies that must be achieved before student teachers are permitted to undertake Professional Experience 1, at the same time observing other student teachers and engaging in peer review. It is recommended that students read widely on effective classroom strategies and practise aspects of their mini-lesson with a small group of peers prior to assessment.

The assessment process will consist of the following two components:

1. A detailed **lesson plan using the prescribed SED template**, including a statement of expected learning outcomes
2. A 10 minute mini-lesson

Initial Lesson Plan: All students must submit to the method lecturer their proposed lesson plan at least one week prior to the presentation. This will be returned with comments on the suitability of the proposal.

Microteaching: This will be assessed according to the attached criteria, and will be graded as **Satisfactory or Unsatisfactory.** Any student whose first microteaching episode is judged as unsatisfactory will be given a further (one only) opportunity to gain a satisfactory grade.

NOTE: If a student is assessed as unsatisfactory in microteaching s/he will automatically fail Method 1 overall, and not be permitted to undertake Professional Experience or any further method work in that teaching area until the key concerns have been resolved.
