### SUMMARY OF COURSE

This course provides qualified, practising teachers who possess relevant background knowledge with the opportunity to gain new or updated skills in the specialist TESOL field. Students will learn about advanced language teaching methodology and its practical applications. Topics cover different approaches to English language learning and teaching, including effective teaching strategies and techniques for teaching reading, writing, listening and speaking. The role of ICT and the Internet is addressed as an integral element of the course.

### THE MAIN WAYS IN WHICH THE COURSE HAS CHANGED SINCE LAST TIME AS A RESULT OF STUDENT FEEDBACK:

*The feedback from the last course was very positive and helpful. Suggested refinements included using more practical examples of teaching plans and materials from real life classrooms using sample texts from visual sources such as YouTube as well as written sources. This feedback has been implemented in the planning and preparation for the updated 2019 course.*

### IMPORTANT INFORMATION

**Assessment:** Students must pass ALL assessments to pass the course. Only by passing all assessments can the AITSL Professional Graduate Teaching Standards be achieved.

**Attendance:** It is expected that any student enrolled in an EDST course with the School of Education will make a commitment to their learning and attend all classes in full where content is delivered in a face-to-face mode except in certain circumstances where absence is due to illness, misadventure or unforeseen circumstances beyond the student's control. A minimum attendance requirement of 80% is required for each course. In certain circumstances, a student may miss up to 20% of a course without formal documentation and up to 33% of a course with formal documentation (sent via email to course convenor) providing all the requirements detailed below are met. Students not meeting the attendance requirements outlined above will be awarded an Unsatisfactory Fail (UF) for that course regardless of their performance in the assessment tasks or other requirements for the course.

### **Please note the following attendance expectations, requirements, and consequences:**

- A minimum attendance requirement of 80% of all scheduled classes (i.e. lectures, tutorials, workshops, seminars) for the subject in which you are enrolled is required by UNSW
- Attendance in person is the only option for tutorials, seminars, and workshops.
- Where attendance is recorded for a scheduled class (i.e. lectures, tutorials, workshops, seminars) either by electronic means or via an attendance register it is the responsibility of the student to make sure they successfully record their attendance by providing all the details required.

It is the responsibility of the student to catch up on any learning missed due to absences.

The School of Education upholds the UNSW attendance policy and is in accordance with the Arts and Social Sciences guidelines and expectations. UNSW policy on Attendance and Absence that can be found at: <https://www.arts.unsw.edu.au/current-students/academic-information/Protocols-Guidelines/#attendanceguidelines>

#### 4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

As language is constantly evolving, practising TESOL teachers and other professionals closely involved in the field need to constantly reflect upon and re-evaluate their understandings of language and how best to teach it. The course thus aims to critically analyse, revise and extend students' understanding and practice of the core approaches and techniques of TESOL methodology.

#### 5. TEACHING STRATEGIES

Students learn best when they are engaged and given an appropriate level of challenge; when their prior experience and knowledge is valued and built upon; when they are expected to take responsibility for their own learning; and when they work collaboratively with their peers.

Thus, teaching strategies used during the course will include:

- Weekly, face-to-face contact sessions.
- Small group cooperative learning to demonstrate the use of group structures to address teaching and learning goals;
- Structured occasions for students to reflect critically on and improve teaching practice;
- Plenary discussions around core methodological issues and debates
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content.
- Online learning from readings and other useful web links.

These activities will occur in a classroom climate that is supportive and inclusive of all learners.
