Professional issues unique to music educators are identified and discussed.

THE MAIN WAYS IN WHICH THE COURSE HAS CHANGED AS A RESULT OF STUDENT FEEDBACK

- Where possible an access to HSC level performances for marking and feedback
- A clear development link between assignment one in Extension Music Method 1 and Extension Music Method 2
- Further moderation activities available.
- Model assessment made available for Assessment 1.

Music educators in Australia face professional environments with extremely limited resources. This course will provide students with the capacity to, not only extend their knowledge of curriculum and pedagogy, but also to operate effectively at the highest levels of schooling, and also to develop and refine their philosophical approach to education such that they can participate actively in professional organizations and advocate for an effective music education.

5. TEACHING STRATEGIES

- Explicit teaching, including lectures, to demonstrate an understanding of students' different approaches to learning and the use of a range of teaching strategies to foster interest and support learning.
- Small group cooperative learning to understand the importance of teamwork in an educational context and to demonstrate the use of group structures as appropriate to address teaching and learning goals.
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content.
- Online learning from readings on the Moodle website.
- Peer teaching in a simulated classroom setting.
- Structured occasions for reflection on learning to allow students to reflect critically on and improve teaching practice.

These activities will occur in a classroom climate that is supportive and inclusive of all learners

Assessment Details

Assessment 1: Resource kit

Design a set of resources for a Stage 6 classroom to develop learning within a context (designated randomly by the lecturer from a list of Syllabus contexts). The resource kit should include at least three lesson plans (one of which focuses on the delivery of Australian Music), and accompanying resources for listening, performing, and composing. These should be linked to the syllabus and be useable by other music teachers.

Use models provided in class, as well as Sydney Symphony education resource kits, textbooks, and other resources and examples provided as examples in class. Your resources should reflect your own approach to teaching that you have developed in your study and relate to your own philosophy of music education.

Assessment 2: Philosophy / Advocacy / Job Application

Part A. Based on the issues discussed in lectures and seminars, develop an advocacy statement (1500 words) for music education, supporting it with appropriate resources and references as needed. The statement should be readable by parents, principals, and others in the community in order to explain why all children have the right to access a quality music education. It should be linked to your Philosophy statement outlined in Part B below.

Part B. The second section of this assignment requires that you outline your own philosophy about teaching music and developing music education. This must be submitted in a written form (as part of a hypothetical job application-1000 words). You should relate this to your experience as a music educator and a musician.

Part C. You will be provided with a hypothetical job descriptor in class and will be required to formulate and submit a one-page letter, which expresses interest in the job, while highlighting the qualities that make you a suitable applicant for the position (approx. 500 words).

Indicative length: Part A: 1,500 words, Part B: 1,000 words, Part C: 500 words
