4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

This subject aims to develop in each student a deeper understanding of the requirements of the Stage 6 English curriculum. During the course students will develop their knowledge of Stage 6 English syllabus documents for EAL/D, Standard, Advanced and Extension I and II. They will develop an understanding of the literacy and assessment demands of stage 6. Students will gain an understanding of current research into effective teaching strategies for stage 6 English.

Student-centred activities will form the basis of the course. These activities will draw on the prior knowledge of the students and will allow them to engage in relevant and challenging experiences that mirror those they will be expected to design for the secondary students they will later teach. A key component of the course will be immersion in the practical demands of teaching senior students. Students will have opportunities to observe practising stage 6 English teachers and discuss the demands of the HSC course with year 12 students and teachers.

5. TEACHING STRATEGIES

- Explicit teaching, including lectures, to demonstrate an understanding of students' different approaches to learning and the use of a range of teaching strategies to foster interest and support learning
- Small group cooperative learning to understand the importance of teamwork in an educational context and to demonstrate the use of group structures as appropriate to address teaching and learning goals
- Structured occasions for reflection on learning to allow students to reflect critically on and improve teaching practice
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content.
- Online learning from readings on Moodle and the UNSWICT wikispace.
- Online discussions
- Opportunities for observations of year 12 Extension I and II, classes and meetings with year
 12 teachers and students to discuss a range of approaches to teaching and learning.

These activities will occur in a classroom climate that is supportive and inclusive of all learners.

Assessment Details

Assessment 1 - Essay on Issues observed during Professional Experience.

Reflection on issues observed during the Professional Experience (50%)

During your professional experience you should observe closely how your school catered to the educational needs of its students. Consider the learning needs of students from diverse cultural and linguistic backgrounds, and students from Aboriginal and Torres Strait Islander backgrounds.

Include details of specific literacy and numeracy needs and strategies needed to inform teaching of English. Write an essay in which you describe your perception of the needs of the students and what you observed as the school's response to these needs.

As part of your discussion, you should also evaluate your school's response to the need to develop literacy and numeracy skills, and the role of ICT. What advice would you offer the school to enhance/improve/change the approach to this issue?

Your essay must demonstrate that you have researched educational theory in forming your opinions. This also includes journal articles from relevant professional journals for English teachers.

Assessment 2: Presentation of Assessment Practices during the Professional Experience Presentation of Assessment Practices: 3,000 words (equivalent) (50%)

Deliver a 15-minute presentation that demonstrates your capacity to use student feedback to develop effective lesson activities. In your presentation you should discuss the assessment practices, both formative and summative, content organisation and moderation approaches that you implemented during your professional experience. You should give examples of how you responded to students' work and then show how you used feedback from the students' work to inform your planning and delivery of subsequent lessons.

Copies of relevant student work samples, your assessment marking criteria, and your written feedback to the student, must be presented to your tutor during that workshop.
