- **Students must complete at least one major in Economics, Econometrics or Financial Economics.**
- Overlapping requirements: If you choose to do two Economics majors that have overlapping compulsory core courses, you do not need to complete them twice. However, if the two Economics majors have overlapping compulsory major specific courses, then you should only count the major specific course towards one Economics major and choose to do a major elective course of the same level in the other Economics major. Please consult the Business School Student Centre if you have any further questions.
